MICHELIN 295/80R22.5 X MULTI ENERGY Z2

KING OF ALL AXLES RUN MORE, SAVE MORE

TCO

- Upto 13% fuel saving thanks to Carbion[1]
- 25% higher mileage, thanks to Carbion[2]
- 11% better Ply strength, thanks to Duracore technology[3]

MICHELIN TECHNOLOGIES

DURACORE

INFINICOIL + POWERCOIL

HIGH ROBUSTNESS, DURABILITY

DURACOIL

REINFORCED BEAD FOR A GREATER DURABILITY & ROBUSTNESS

CARBION

INCREASED LONGEVITY, LOWER ROLLING RESISTANCE

(1) Michelin 295/80R22.5 X Multi Energy Z2 delivers up to 13% more fuel saving compared with the tested leading competitor tyre, based on the internal fuel test carried out by Michelin on the Namakkal to Dindigul highway using an Ashok Leyland 16-wheeler 4825 vehicle.
(2) Michelin 295/80R22.5 X Multi Energy Z2 is expected to deliver up to 25% longer tyre life compared with the tested leading competitor tyre, based on the internal simulation assessment by Michelin R&D team and extrapolation of the Michelin CES team data captured from 2023 to 2025.
(3) Michelin 295/80R22.5 X Multi Energy Z2 has demonstrated up to 11% higher breaking energy (ply strength) compared with the tested leading competitor tyre. The test was done at the Michelin UCH Factory in Chennai in July 2026.
(4) Based on the internal simulation using Michelin TCO2, savings up to 03 lakh INR is obtained over the period of 1 life on a 16-wheeler truck by using the internal mileage data captured by the CES team for Michelin and Competitor tyre. Michelin 295/80R22.5 X Multi Energy Z2 tyres are fitted in all positions compared with the competitor tyres configuration assessed.
Results are based on the test, simulation and data conditions described above. Actual performance and savings may vary depending on factors including vehicle configuration, load, tyre maintenance, driving practices, route, road conditions, speed, temperature, and terrain. The stated results are not guaranteed for every vehicle or operating condition.
