

LIGHTER
THAN EXPECTED

MICHELIN AIR X
SKY LIGHT

MICHELIN AIR X SKY LIGHT A NEW GENERATION OF TIRES

Michelin is supporting the transformation of aviation to make it more sustainable towards a decarbonized aviation - net zero CO2 in 2050, by developing a new generation of radial tires with a breakaway performance:

- **+10% to 20% Landings Per Tread (LPT) performance** decreases the number of tires required for operations, maintenance needs, and cuts time on the ground
- **10% to 20% lighter than previous generations of tires**

OUR COMMITMENT: MUCH LIGHTER & EFFICIENT AIRCRAFTS

A BREAKTHROUGH INNOVATION A COMBINATION OF INNOVATIVE TECHNOLOGIES IN A SMART DESIGN

NEW SUMMIT CONSTRUCTION

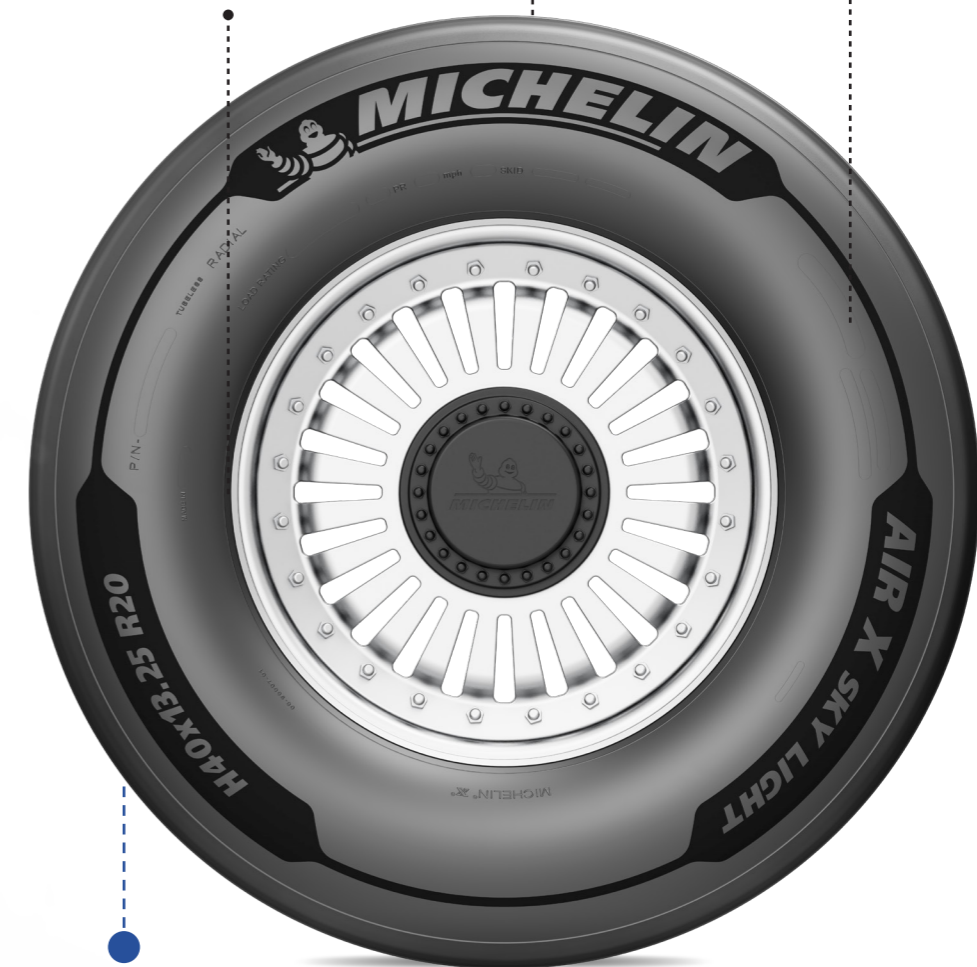

Protection embedding hybrid technologies with an optimized footprint design increasing skid available to be worn out

NEW BEAD AREA CONCEPTION

A breakthrough bead design, leading to much lighter solution

SIDEWALL OPTIMIZED STRUCTURE

Embedding new materials

MORE THAN A TIRE

A foundation to accelerate the deployment of future Michelin innovations to reduce the environmental impact of the tire
