

BFGoodrich® Implement Control Tire

BFGoodrich® developed tough tires for motorsports and off-road applications, and now we've adapted them for the challenges on the farm. This agricultural tire delivers the same performance, durability and resilience that made BFGoodrich the go-to off-road racing tire, with new features that will help America's farmers protect their soil and maximize their yield.

BFGoodrich® IMPLEMENT CONTROL TIRE

The BFGOODRICH® Implement Control is a long wearing, robust farm tire, built right here in the U.S.A. It is specially designed for pull-behind implements and can handle heavy loads and the everyday challenges of farming.

QUALITY PERFORMANCE BY DESIGN

SAVE TIME AND MONEY WITH A CASING YOU CAN COUNT ON

- The BFGOODRICH® KM3 casing with proven durability is built with damage-resistance that allows it to withstand rough impacts and endure a high load capacity
- The high-performing, tough tread pattern uses innovative rubber compounds to fight against the wear and tear of stubble
- Unique design and compounds deliver long lasting wear

HIGH LOAD AND SPEED CAPACITY

HAUL HEAVY ON AND OFF-ROAD

- IF tire is designed to carry 20% more weight at the same pressure as a standard radial tire without compromising durability and traction on and off the road
- Rated for heavy loads and high speeds to get the job done

SOIL PROTECTION

PROTECT YOUR CROPS AND YOUR BOTTOM LINE

- Low pressure IF tire delivers a large footprint, decreasing soil compaction and increasing yield
- Specially designed to work with CTIS systems, the flexible sidewall allows for optimized performance for traction in the field and long wear on the road
